MEMORANDUM

To: Linn County Board of Commissioners

Re: Resolution & Order 2024-170 – Request for Proposal for Architectural Services – Jail Renovation

The Linn County Sheriff's Office has previously entered into design exploration services with DLR Group, to discover possibilities related to expanding our female housing capacity. We frequently have no available bed space for female Adults in Custody (AIC). Preliminary designs indicate a potential of 22 additional female beds, which represents more options for keeping lower custody level AIC females in the jail. Even more importantly, it represents flexibility to repurpose many of our double bunk cells to single cells. Housing to the mentally ill and those with behavioral issues requires this type of use, but the Linn County Jail currently has only two single-bunk cells. We frequently are required to house a single AIC with mental illness or behavioral issues in a double-bunk cell, limiting our capacity.

This expansion would allow for better management options with our continuously growing female population. Right now, we are unable to completely separate medium and maximum custody females. While this expansion may not solve all of the issues in our female housing area, it will greatly increase our options. Mixing custody levels of AICs is highly discouraged both in jail standards and by insurance companies. It is always a risk factor.

We believe it in the best interest of the Sheriff's Office, and taxpayers of Linn County, for the Sheriff's Office to solicit through a Request for Proposal, on a competitive basis, a professional architectural design firm for a jail renovation project.

The attached RFP has been carefully put together to meet the needs of the Sheriff's Office, and match us with an eventual selected firm, who can provide the required services.
